

Week of 18-24 November 1977

A. Major Activities During the Past Week:

A. Support to OTR:

(U) PREVMAIN - A system for preventive maintenance for OTR. The Office of Communications continues to work on the line problems [REDACTED]. The customer is unable to enter data until these problems are resolved. [REDACTED]

25X1A

25X1A

B. Support to OWI:

25X1A

[REDACTED]
to procure additional data analysis and software development services of mutual interest as an extension of the FY-78 contract with [REDACTED]. A request for procurement services has been sent to the ODP Budget and Finance Officer with a copy of the [REDACTED] proposal for the additional services.

25X1A

25X1A

This procurement request will be forwarded to ADPAWB/RD/OI after ODP receives a response to a letter to OF requesting the assignment of accounting numbers. The contracting officer has completed preliminary negotiation with [REDACTED] for the additional services. It is expected that processing of this procurement will be completed early in December.

25X1A

C. Support to OF:

(U) CONINP - Management of information on Agency contracts and interface problems. OF has reported that 36% of the acceptance testing is completed. The scheduled completion date of 1 January still looks very optimistic. To date, 41 problems have been identified of which 8 remain outstanding. [REDACTED]

25X1A

CONFIDENTIAL

D. SUPPORT TO OCP

(U) OCP/DIR - Automation of the OCP Directories. OCP has completed the final update on the GIN System for the publication of the [REDACTED]. STEC [REDACTED] 25X1A interface files will be created and delivered to P&PD for processing by 23 November 1977. This publication will feature our latest software enhancements which will identify externally (from sources other than the GIN data) produced inserts. The [REDACTED] directory will contain a three page glossary, country map, and an organizational hierarchical Chart for [REDACTED] 25X1A. The final publication and dissemination date is expected to be around 31 December 1977.

25X1A E. Support to OC

(U) OC/REV - Miscellaneous task development and production not associated with an existing project. At the request of OC we have performed a survey and review of the OC APP management application software. A report addressing all such applications were forwarded to OC. (About 160 man-hours for this effort.)

25X1A [REDACTED]

F. Support to OMS

(U) CAMPS - Computer assisted medical processing system supporting medical case evaluation activities. We have received formal approval from OMS to begin the NIRS DBMS-based design for the diagnosis portion of the CAMPS system. This effort will be a pilot effort for the future implementation of the entire CAMPS DBMS software on NIRS. (About 350 man-hours for this effort.)

25X1A [REDACTED]

G. Training During the Past Week:

25X1A A three-day course, basic VM, was completed by 18 students. [REDACTED]

Nothing to report on FOIA.
